Legendary guitar manufacturer, Gretsch, donated twenty acoustic guitars. These instruments were handed to twenty prominent Los Angeles artists who used their individual talents and styles to create unique works of art. The generosity of both Gretsch and the artists have come together for the benefit of Hamomi Children's Centre in Nairobi, Kenya.

This inaugural event will feature silent auction bidding for each guitar, live music, 21+ beer / wine bar, and Hamomi staff on hand to provide information about this great charity.
