Shooting took place in late summer 2010, to capture the emerald isle at her cinematic best. Let our film draw you in as we explore various symbolism and their meanings through history, harkening back to an earlier and simpler time, when people were in touch with the earth, sea and air, and when life was acknowledged at two levels at once: the physical and the spiritual. We will discuss the Anam Cara, or soul friend, which one author describes as "friendship graced with affection" and other Celtic concepts, viewing the deep symbolism... And of course, we won't forget the elves and leprechauns! Until then, Dia Dhuit (God be with you). Learn more at www.elfenworksproductions.com.
