

THREE GRIEG DANCES

Music of EDVARD GRIEG

Arranged for
Mallet Percussion Quartet
by MATT SPRINGER

Three Grieg Dances

for Mallet Percussion Quartet

Edvard Grieg; arranged by Matt Springer

- I. Norwegian Dance #1 (from the Norwegian Dances)
- II. Arabian Dance (from the Peer Gynt Suite)
- III. Rigaudon (from the Holberg Suite)

Conductor's Score

*Requires 1 set orchestra bells, 1 xylophone, 1 vibraphone,
1 marimba (4-1/2 octave), and 1 triangle. Can be
performed with 4-1/3 octave marimba to lesser effect.*

KHACH

Performance Notes

(updated February 2008)

- 1) These arrangements are scored for one set of bells, one xylophone, one vibraphone, one low F marimba (4-1/2 octave), and triangle. Because there are several sections in which player II switches from the xylophone to the bells or marimba, the use of two sets of bells and two marimbas (one can be low A) makes it easier if such instruments are available. However, if only one set of bells or one marimba is available, the parts are written such that two players can share one instrument; in fact, that is how I premiered the suite. In this case, the respective parts get quite close together at times, but they all work (hopefully the players like each other). Placing the xylophone in between the bells and marimba is recommended to accommodate Player II's travels. In the Rigaudon at rehearsal letter E, the two marimba players' sticks cross and a little choreography needs to be practiced to avoid mallet collisions.
- 2) Please note that in the Norwegian Dance, Player II plays the Marimba II part, while in the Rigaudon, Player II plays the Marimba I part. This is not an error; it was done this way before publication for reasons of minor convenience and to give the players more variety. In the initial Belwin edition, the parts in the Norwegian Dance were swapped for consistency. The current Khach-22 edition restores the parts to their original distribution.
- 3) A low F 4-1/2 octave marimba is recommended in order to get the full desired effect. However, a low A marimba or even a low C (4 octave) marimba can still be used if the player occasionally moves up an octave. However, this will be less effective, especially in the lyrical middle sections of the movements.
- 4) At the dal segno of the Norwegian Dance and at the da capo of the Rigaudon, it helps to avoid gaps in the music if Player III sustains the last vibraphone note until the necessary stick changes are accomplished and the traveling player II has reached his/her destination.
- 5) The mallet requirements are as follows:
Player I: 2 hard plastic bell mallets
Player II: 2 hard plastic bell mallets, 4 hard rubber xylophone mallets, 2 medium-hard rubber xylophone mallets, 2 medium-soft yarn mallets, 2 very soft yarn mallets
Player III: 3 medium-hard cord mallets, 1 triangle beater
Player IV: 4 medium-hard cord mallets, 2 very soft yarn mallets, 4 medium-soft rubber mallets
- 6) Players II and IV have fast repeated double stops throughout the Arabian Dance that can be carried out with four mallets. Medium soft rubber mallets are strongly recommended for the marimba during this section (e.g. Musser yellow rubber mallets), as they give a nice percussive click that adds to the effect that is carried out by a tambourine in the original orchestral version.

- 7) There are some admittedly difficult stick changes, but again, they all work if they are practiced. In particular, at letter A of the Arabian Dance, Player II must change from playing the bells with two hard plastic mallets to playing the xylophone with four hard rubber mallets in the space of two measures. This is quite possible if the player starts out with four mallets: two hard rubber mallets on the outside and two hard plastic mallets on the inside. After playing the bells with the inside two mallets, they can be quickly dropped and the other two rubber mallets picked up without ever letting go of the outer mallets—especially if Musser or Stevens grip is used. Similarly, at the same part of the music, Player III switches from triangle to vibes in no time at all, so that player needs to be holding the vibraphone mallets from the start with one mallet and the triangle beater in the same hand. The triangle beater can be dropped when convenient.
- 8) For a wealth of information about Three Grieg Dances, including streaming audio of the music in its entirety, news, program notes, reviews, and trivia, please visit <http://www.khach-22.com>.

Performance Notes

(updated February 2008)

- 1) These arrangements are scored for one set of bells, one xylophone, one vibraphone, one low F marimba (4-1/2 octave), and triangle. Because there are several sections in which player II switches from the xylophone to the bells or marimba, the use of two sets of bells and two marimbas (one can be low A) makes it easier if such instruments are available. However, if only one set of bells or one marimba is available, the parts are written such that two players can share one instrument; in fact, that is how I premiered the suite. In this case, the respective parts get quite close together at times, but they all work (hopefully the players like each other). Placing the xylophone in between the bells and marimba is recommended to accommodate Player II's travels. In the Rigaudon at rehearsal letter E, the two marimba players' sticks cross and a little choreography needs to be practiced to avoid mallet collisions.
- 2) Please note that in the Norwegian Dance, Player II plays the Marimba II part, while in the Rigaudon, Player II plays the Marimba I part. This is not an error; it was done this way before publication for reasons of minor convenience and to give the players more variety. In the initial Belwin edition, the parts in the Norwegian Dance were swapped for consistency. The current Khach-22 edition restores the parts to their original distribution.
- 3) A low F 4-1/2 octave marimba is recommended in order to get the full desired effect. However, a low A marimba or even a low C (4 octave) marimba can still be used if the player occasionally moves up an octave. However, this will be less effective, especially in the lyrical middle sections of the movements.
- 4) At the dal segno of the Norwegian Dance and at the da capo of the Rigaudon, it helps to avoid gaps in the music if Player III sustains the last vibraphone note until the necessary stick changes are accomplished and the traveling player II has reached his/her destination.
- 5) The mallet requirements are as follows:
Player I: 2 hard plastic bell mallets
Player II: 2 hard plastic bell mallets, 4 hard rubber xylophone mallets, 2 medium-hard rubber xylophone mallets, 2 medium-soft yarn mallets, 2 very soft yarn mallets
Player III: 3 medium-hard cord mallets, 1 triangle beater
Player IV: 4 medium-hard cord mallets, 2 very soft yarn mallets, 4 medium-soft rubber mallets
- 6) Players II and IV have fast repeated double stops throughout the Arabian Dance that can be carried out with four mallets. Medium soft rubber mallets are strongly recommended for the marimba during this section (e.g. Musser yellow rubber mallets), as they give a nice percussive click that adds to the effect that is carried out by a tambourine in the original orchestral version.

- 7) There are some admittedly difficult stick changes, but again, they all work if they are practiced. In particular, at letter A of the Arabian Dance, Player II must change from playing the bells with two hard plastic mallets to playing the xylophone with four hard rubber mallets in the space of two measures. This is quite possible if the player starts out with four mallets: two hard rubber mallets on the outside and two hard plastic mallets on the inside. After playing the bells with the inside two mallets, they can be quickly dropped and the other two rubber mallets picked up without ever letting go of the outer mallets—especially if Musser or Stevens grip is used. Similarly, at the same part of the music, Player III switches from triangle to vibes in no time at all, so that player needs to be holding the vibraphone mallets from the start with one mallet and the triangle beater in the same hand. The triangle beater can be dropped when convenient.

The musical score for Player I consists of nine staves of music. The first staff (measures 54-58) begins with a treble clef, a key signature of one sharp (F#), and a tempo marking of 'a tempo'. It contains slurs and a crescendo marking 'cresc.' leading to a forte 'f' dynamic. The second staff (measures 59-63) continues the melodic line with slurs and a decrescendo 'dim.' marking. The third staff (measures 64-68) starts with a measure rest, followed by a key signature change to two sharps (F# and C#), a piano 'p' dynamic, and a boxed letter 'E'. The fourth staff (measures 69-74) features a key signature change to one sharp (F#), a forte 'f' dynamic, and a boxed letter 'F'. The fifth staff (measures 75-79) continues the melodic line with slurs. The sixth staff (measures 80-85) includes a 'poco rit.' marking followed by 'a tempo', slurs, and a crescendo 'cresc.'. The seventh staff (measures 86-91) starts with a forte 'f' dynamic and slurs. The eighth staff (measures 92-97) begins with a decrescendo 'dim.', followed by a forte 'f' dynamic, and ends with a decrescendo 'p' and the instruction 'D.S. al coda'. The ninth staff (measures 98-103) starts with a Coda symbol (a circle with a cross) and a fortissimo 'ff' dynamic, followed by slurs and a final measure with a fermata and the number '8'.

Performance Notes

(updated February 2008)

- 1) These arrangements are scored for one set of bells, one xylophone, one vibraphone, one low F marimba (4-1/2 octave), and triangle. Because there are several sections in which player II switches from the xylophone to the bells or marimba, the use of two sets of bells and two marimbas (one can be low A) makes it easier if such instruments are available. However, if only one set of bells or one marimba is available, the parts are written such that two players can share one instrument; in fact, that is how I premiered the suite. In this case, the respective parts get quite close together at times, but they all work (hopefully the players like each other). Placing the xylophone in between the bells and marimba is recommended to accommodate Player II's travels. In the Rigaudon at rehearsal letter E, the two marimba players' sticks cross and a little choreography needs to be practiced to avoid mallet collisions.
- 2) Please note that in the Norwegian Dance, Player II plays the Marimba II part, while in the Rigaudon, Player II plays the Marimba I part. This is not an error; it was done this way before publication for reasons of minor convenience and to give the players more variety. In the initial Belwin edition, the parts in the Norwegian Dance were swapped for consistency. The current Khach-22 edition restores the parts to their original distribution.
- 3) A low F 4-1/2 octave marimba is recommended in order to get the full desired effect. However, a low A marimba or even a low C (4 octave) marimba can still be used if the player occasionally moves up an octave. However, this will be less effective, especially in the lyrical middle sections of the movements.
- 4) At the dal segno of the Norwegian Dance and at the da capo of the Rigaudon, it helps to avoid gaps in the music if Player III sustains the last vibraphone note until the necessary stick changes are accomplished and the traveling player II has reached his/her destination.
- 5) The mallet requirements are as follows:
Player I: 2 hard plastic bell mallets
Player II: 2 hard plastic bell mallets, 4 hard rubber xylophone mallets, 2 medium-hard rubber xylophone mallets, 2 medium-soft yarn mallets, 2 very soft yarn mallets
Player III: 3 medium-hard cord mallets, 1 triangle beater
Player IV: 4 medium-hard cord mallets, 2 very soft yarn mallets, 4 medium-soft rubber mallets
- 6) Players II and IV have fast repeated double stops throughout the Arabian Dance that can be carried out with four mallets. Medium soft rubber mallets are strongly recommended for the marimba during this section (e.g. Musser yellow rubber mallets), as they give a nice percussive click that adds to the effect that is carried out by a tambourine in the original orchestral version.

- 7) There are some admittedly difficult stick changes, but again, they all work if they are practiced. In particular, at letter A of the Arabian Dance, Player II must change from playing the bells with two hard plastic mallets to playing the xylophone with four hard rubber mallets in the space of two measures. This is quite possible if the player starts out with four mallets: two hard rubber mallets on the outside and two hard plastic mallets on the inside. After playing the bells with the inside two mallets, they can be quickly dropped and the other two rubber mallets picked up without ever letting go of the outer mallets—especially if Musser or Stevens grip is used. Similarly, at the same part of the music, Player III switches from triangle to vibes in no time at all, so that player needs to be holding the vibraphone mallets from the start with one mallet and the triangle beater in the same hand. The triangle beater can be dropped when convenient.

Placing the xylophone in between the bells and marimba is recommended to accommodate Player II's travels. In the Rigaudon at rehearsal letter E, the two marimba players' sticks cross and a little choreography needs to be practiced to avoid mallet collisions.
- 2) Please note that in the Norwegian Dance, Player II plays the Marimba II part, while in the Rigaudon, Player II plays the Marimba I part. This is not an error; it was done this way before publication for reasons of minor convenience and to give the players more variety. In the initial Belwin edition, the parts in the Norwegian Dance were swapped for consistency. The current Khach-22 edition restores the parts to their original distribution.
- 3) A low F 4-1/2 octave marimba is recommended in order to get the full desired effect. However, a low A marimba or even a low C (4 octave) marimba can still be used if the player occasionally moves up an octave. However, this will be less effective, especially in the lyrical middle sections of the movements.
- 4) At the dal segno of the Norwegian Dance and at the da capo of the Rigaudon, it helps to avoid gaps in the music if Player III sustains the last vibraphone note until the necessary stick changes are accomplished and the traveling player II has reached his/her destination.
- 5) The mallet requirements are as follows:
Player I: 2 hard plastic bell mallets
Player II: 2 hard plastic bell mallets, 4 hard rubber xylophone mallets, 2 medium-hard rubber xylophone mallets, 2 medium-soft yarn mallets, 2 very soft yarn mallets
Player III: 3 medium-hard cord mallets, 1 triangle beater
Player IV: 4 medium-hard cord mallets, 2 very soft yarn mallets, 4 medium-soft rubber mallets
- 6) Players II and IV have fast repeated double stops throughout the Arabian Dance that can be carried out with four mallets. Medium soft rubber mallets are strongly recommended for the marimba during this section (e.g. Musser yellow rubber mallets), as they give a nice percussive click that adds to the effect that is carried out by a tambourine in the original orchestral version.

- 7) There are some admittedly difficult stick changes, but again, they all work if they are practiced. In particular, at letter A of the Arabian Dance, Player II must change from playing the bells with two hard plastic mallets to playing the xylophone with four hard rubber mallets in the space of two measures. This is quite possible if the player starts out with four mallets: two hard rubber mallets on the outside and two hard plastic mallets on the inside. After playing the bells with the inside two mallets, they can be quickly dropped and the other two rubber mallets picked up without ever letting go of the outer mallets—especially if Musser or Stevens grip is used. Similarly, at the same part of the music, Player III switches from triangle to vibes in no time at all, so that player needs to be holding the vibraphone mallets from the start with one mallet and the triangle beater in the same hand. The triangle beater can be dropped when convenient.

Musical staff 63-67. Treble clef, key signature of two flats. Measures 63-67 contain eighth and sixteenth notes with various articulations including accents and slurs. A box labeled 'D' is above measure 67.

68

f

Musical staff 68-72. Treble clef, key signature of two flats. Measures 68-72 contain eighth and sixteenth notes with slurs. A forte (*f*) dynamic marking is present in measure 70.

73

ff

Musical staff 73-77. Treble clef, key signature of two flats. Measures 73-77 contain eighth and sixteenth notes with slurs. A fortissimo (*ff*) dynamic marking is present in measure 73.

78 To Coda ☐

Musical staff 78-84. Treble clef, key signature of two flats. Measures 78-84 contain eighth and sixteenth notes with slurs. The staff ends with a Coda symbol.

85 E Cantabile

p molto legato molto pedal

Musical staff 85-96. Treble clef, key signature of two flats. Measures 85-96 contain a long melodic line with slurs. A box labeled 'E' is above measure 85. Dynamics include *p* (piano), *molto legato*, and *molto pedal*.

97

Musical staff 97-101. Treble clef, key signature of two sharps. Measures 97-101 contain a long melodic line with slurs.

102

mf

Musical staff 102-108. Treble clef, key signature of two sharps. Measures 102-108 contain a long melodic line with slurs. A mezzo-forte (*mf*) dynamic marking is present in measure 106.

109

Musical staff 109-114. Treble clef, key signature of two sharps. Measures 109-114 contain a long melodic line with slurs.

115

f *dim.* *p*

Musical staff 115-120. Treble clef, key signature of two sharps. Measures 115-120 contain a long melodic line with slurs. Dynamics include *f* (forte), *dim.* (diminuendo), and *p* (piano).

121 F a tempo

p *rit.* *p*

Musical staff 121-125. Treble clef, key signature of two sharps. Measures 121-125 contain a long melodic line with slurs. Dynamics include *p* (piano), *rit.* (ritardando), and *p* (piano). A box labeled 'F' is above measure 124.

Player III

130

Musical staff 130-136: Treble clef, key of D major. Measures 130-136 show a melodic line with eighth and quarter notes, and a bass line with sustained notes and some movement.

137

Musical staff 137-144: Treble clef, key of D major. Measures 137-144 continue the melodic and harmonic development. Measure 144 ends with a *pp* (pianissimo) dynamic marking.

145

Musical staff 145-151: Treble clef, key of D major. Measures 145-151 feature a melodic line with eighth notes and a bass line with sustained notes.

152

Musical staff 152-160: Treble clef, key of D major. Measures 152-160 show a melodic line with eighth notes and a bass line with sustained notes. Measure 160 ends with a *p* (piano) dynamic marking.

161

Musical staff 161-168: Treble clef, key of D major. Measures 161-168 continue the melodic and harmonic development.

169

Musical staff 169-176: Treble clef, key of D major. Measures 169-176 show a melodic line with eighth notes and a bass line with sustained notes. Dynamics include *cresc.* (crescendo), *mf* (mezzo-forte), *cresc.* (crescendo), and *f* (forte).

177

Musical staff 177-183: Treble clef, key of D major. Measures 177-183 show a melodic line with eighth notes and a bass line with sustained notes. Dynamics include *dim.* (diminuendo) and *p* (piano).

184

Musical staff 184-188: Treble clef, key of D major. Measures 184-188 show a melodic line with eighth notes and a bass line with sustained notes. Dynamics include *p* (piano), *rit.* (ritardando), and *D.S. al coda*.

189

Musical staff 189-195: Treble clef, key of D major. Measures 189-195 show a melodic line with eighth notes and a bass line with sustained notes. Dynamics include *ff* (fortissimo).

Performance Notes

(updated February 2008)

- 1) These arrangements are scored for one set of bells, one xylophone, one vibraphone, one low F marimba (4-1/2 octave), and triangle. Because there are several sections in which player II switches from the xylophone to the bells or marimba, the use of two sets of bells and two marimbas (one can be low A) makes it easier if such instruments are available. However, if only one set of bells or one marimba is available, the parts are written such that two players can share one instrument; in fact, that is how I premiered the suite. In this case, the respective parts get quite close together at times, but they all work (hopefully the players like each other). Placing the xylophone in between the bells and marimba is recommended to accommodate Player II's travels. In the Rigaudon at rehearsal letter E, the two marimba players' sticks cross and a little choreography needs to be practiced to avoid mallet collisions.
- 2) Please note that in the Norwegian Dance, Player II plays the Marimba II part, while in the Rigaudon, Player II plays the Marimba I part. This is not an error; it was done this way before publication for reasons of minor convenience and to give the players more variety. In the initial Belwin edition, the parts in the Norwegian Dance were swapped for consistency. The current Khach-22 edition restores the parts to their original distribution.
- 3) A low F 4-1/2 octave marimba is recommended in order to get the full desired effect. However, a low A marimba or even a low C (4 octave) marimba can still be used if the player occasionally moves up an octave. However, this will be less effective, especially in the lyrical middle sections of the movements.
- 4) At the dal segno of the Norwegian Dance and at the da capo of the Rigaudon, it helps to avoid gaps in the music if Player III sustains the last vibraphone note until the necessary stick changes are accomplished and the traveling player II has reached his/her destination.
- 5) The mallet requirements are as follows:
Player I: 2 hard plastic bell mallets
Player II: 2 hard plastic bell mallets, 4 hard rubber xylophone mallets, 2 medium-hard rubber xylophone mallets, 2 medium-soft yarn mallets, 2 very soft yarn mallets
Player III: 3 medium-hard cord mallets, 1 triangle beater
Player IV: 4 medium-hard cord mallets, 2 very soft yarn mallets, 4 medium-soft rubber mallets
- 6) Players II and IV have fast repeated double stops throughout the Arabian Dance that can be carried out with four mallets. Medium soft rubber mallets are strongly recommended for the marimba during this section (e.g. Musser yellow rubber mallets), as they give a nice percussive click that adds to the effect that is carried out by a tambourine in the original orchestral version.

- 7) There are some admittedly difficult stick changes, but again, they all work if they are practiced. In particular, at letter A of the Arabian Dance, Player II must change from playing the bells with two hard plastic mallets to playing the xylophone with four hard rubber mallets in the space of two measures. This is quite possible if the player starts out with four mallets: two hard rubber mallets on the outside and two hard plastic mallets on the inside. After playing the bells with the inside two mallets, they can be quickly dropped and the other two rubber mallets picked up without ever letting go of the outer mallets—especially if Musser or Stevens grip is used. Similarly, at the same part of the music, Player III switches from triangle to vibes in no time at all, so that player needs to be holding the vibraphone mallets from the start with one mallet and the triangle beater in the same hand. The triangle beater can be dropped when convenient.
